COFFEE RECIPE OF THE MONTH

Cinnamon and Caramel Hot Chocolate

2Tbsp drinking chocolate powder

25ml cinnamon syrup

25ml caramel syrup

280ml full fat milk

Ground cinnamon to finish

Put 280ml full fat milk into a stainless steel jug.

With the steam arm close to the bottom of the jug steam the milk to a 'whirlpool' effect until it reaches a temperature of 140 degrees Fahrenheit.

When the milk has reached this temperature slowly bring the steam arm towards the top of the jug until the temperature hits 160 degrees Fahrenheit, taking care not to create any bubbles in the milk.

The milk should have a consistency like cream and have a gloss appearance.

Place drinking chocolate powder in a mug and add a little boiling water to dissolve.

Add the syrups to the mix of drinking chocolate and boiling water and stir.

Add the hot steamed milk to the chocolate/syrup mix and stir.

Give the mug a sharp tap on a flat surface to get rid of any bubbles which may have appeared.

Sprinkle with ground cinnamon and serve.
